Hours of Operation:

Hours of Operation: 7:00 AM - 10:10 PM; Monday through Thursday and 7:00 AM - 5:00 PM; Friday
Class Schedule: Morning Classes: 8:00 AM - 12:00 PM; Monday through Friday
Late Morning Classes: 10:00 AM - 2:00 PM; Monday through Friday
Afternoon Classes: 1:00 PM - 5:00 PM; Monday through Friday
Night Classes: 5:50 PM - 10:10 PM; Monday through Friday
Medical Assistant, Pharmacy Technician, Dental Assistant, Veterinary Assistant, Veterinary Technology and Diagnostic Medical Sonography Externships are 40 hours per week.

Student Breaks: 10 minutes per hour, not exceeding 40 minutes per 4 hours

Mealtimes: Pima Medical Institute does not provide "mealtime", however students are welcome to eat meals during student breaks

Facility Description

The Houston Campus occupies 43,200 square feet and is divided into 14 major instructional areas. There are four computer labs. The Dental Assistant classroom includes three dental chairs and three x-ray machines. Dental equipment includes an ultrasonic, an autoclave, curing lights, amalgamators, model trimmers, a polishing lathe, an x-ray developer machine, and digital equipment. The Dental Hygiene department includes a classroom, lab, dental clinic, and dental clinic lobby. The dental clinic equipment includes two ultrasonics, four autoclaves, 15 dental chairs, three digital x-ray operatories, and panelipse machine. The Diagnostic Medical Sonography lab has ultrasound machines with gray-scale imaging capabilities, color Doppler and spectral Doppler capabilities along with a machine that provides 3D and 4D features. The medical labs are well equipped with a blood drawing chair, venipuncture arms, CPR mannequins, mannequin arms, EKG machine, an examination table, microscopes, an autoclave, a centrifuge, human skeleton, urinalysis machine, urinometers, pulse oximeter, nebulizer, a microhematocrit, an otoscope, and glucometers. The Pharmacy Technician classroom is well-equipped with drug shelving, digital scales, a cash register, graduated cylinders, a vent hood, and pharmaceutical supplies. The Physical Therapist Assistant program lab space contains 10 exam tables, 2 treatment mats, parallel bars, a training staircase, a treadmill, a pulley weight system, and myriad assistive devices. It is also equipped with appropriate modalities to administer thermotherapy, cryotherapy, electrical stimulation, iontophoresis, ultrasound, hydrotherapy, infrared light, intermittent compression, and mechanical traction.

The Radiography program has two fully functional digital radiography x-ray labs complete with skeletal models, phantoms, patient and occupational shielding, gurney, sponge sets, markers, imaging teaching files, and other radiograph equipment commonly utilized in a modern patient care hospital settings. Classroom has teaching videos, posters, and anatomic models. The Veterinary Assistant classroom hosts cages, exam tables, centrifuges, microscopes, refractometers, an autoclave, an x-ray view box, an otoscope, and anatomical models. The Respiratory Therapy space includes a fully functional lab with air and oxygen, a simulation room with SimMan™, mechanical ventilators (invasive and noninvasive), pulse oximeters, and arterial blood gas practice arms. The separate classroom located at 17555 Katy Freeway houses the Veterinary Technician program and is equipped with all American Veterinary Medical Association essential equipment and supplies including a full surgical suite, surgical prep area, radiography area, and laboratory area equipment.

Admission Requirements and Procedures:

Admission requirements are noted on page 130 of the Academic Catalog. Students may not start class after the third day of classes. Additional requirements are as follows:

Wonderlic Test

Degree Programs:

- Applicants for degree programs are required to take the Wonderlic SLE and receive a minimum score of 20.

Non-Degree Programs:

- Applicants for non-degree programs are required to take the Wonderlic SLE and receive a minimum score of 14.

Math Admission Test

Degree Programs and Diagnostic Medical Sonography:

- Applicants for degree programs are required to take a Math Admission Test and receive a minimum score of 80% (24 out of 30 correct).
- The use of a calculator is allowed.
- No time limit.
- The test can be taken up to 3 times using a different version for each attempt.

Retesting

- A student must wait a minimum of five calendar days prior to retaking an entrance test.

PMI recommends that before any student attends a Career Prep course(s) outside of normal sequencing, the student should request approval from the Campus Director.

Revisions to the 2018-2019 Catalog published April 2018:**The following statement is currently in the 2018-2019 catalog on page 60 under Program Information:**

Graduates of this program are granted an Associate of Applied Science degree.

This statement has been replaced with the following:

Graduates of this program are granted an Associate of Applied Science degree. Graduates of this program are eligible to apply to sit for the American Registry of Diagnostic Medical Sonographers Examinations.

The following statement is located in the Class Starts and Postponement section on p. 130 of the 2018-2019 catalog:

Postponement by the school within thirty (30) days of the original starting date will not alter the terms and conditions of the enrollment agreement. Postponement by the school beyond thirty (30) days of the original starting date will terminate the enrollment agreement with all monies paid by the applicant to be refunded in full.

This statement has been replaced with the following:

Postponement of a starting date, whether at the request of the school or the student, requires a written agreement signed by the student and the school. The agreement must set forth:

A. Whether the postponement is for the convenience of the school or the student, and;

B. A deadline for the new start date, beyond which the start date will not be postponed.

If the course is not commenced, or the student fails to attend by the new start date set forth in the agreement, the student will be entitled to an appropriate refund of prepaid tuition and fees within 30 days of the deadline of the new start date set forth in the agreement, determined in accordance with the school's refund policy and all applicable laws and rules concerning the Private Occupational Education Act of 1981.

The following information is currently listed in the 2018-2019 catalog on page 132 under Student/Instructor Ratio:

The laboratory ratio of students to instructor does not exceed 20 to 1. The Texas classroom ratio does not exceed 30 to 1. In other

MEDICAL LABORATORY TECHNICIAN

OBJECTIVE

To develop in students the personal traits and professional skills required to perform as competent entry-level medical laboratory technicians. Students learn and practice the fundamentals of testing procedures on various body fluids, including urine, synovial fluid, cerebrospinal fluid, and blood. They also learn to differentiate between normal and abnormal test results. Students learn and apply important safety concepts and practices, including OSHA standards, universal precautions, and personal protective equipment.

-Catalog Addendum for 2018-2019 catalog published April 2018 (04/15/18)

ADMISSION REQUIREMENTS

Please reference admission requirements on page 130.

Semester I (15 Weeks)

Course #	Course	Theory	Lab	Extern	Credits
PSY 107	Psychology of Success	40			2.5
MAP 110	Medical Terminology	40			2.5
ENG 121	English Communications	40			2.5
MLT 140	General Chemistry	40			2.5
MLT 100	Introduction to Medical Lab	20	20		2.0
CIS 110	Fundamental Computer Skills	20	20		2.0
MAP 123	Anatomy & Physiology: Circulation & Life	40			2.5
Semester I Total		240	40		16.5

Semester II (15 Weeks)

Course #	Course	Theory	Lab	Extern	Credits
MAP 122	Anatomy & Physiology: Control & Metabolism	40			2.5
MLT 105	Instrumentation and Quality Control	20	20		2.0
MLT 115	Molecular Biology	40			2.5
MLT 110	Math for Medical Specialities	40			2.5
MLT 160	Microbiology	20	60		3.0
PSY 134	General Psychology	40			2.5
Semester II Total		200	80		15.0

Semester III (15 Weeks)

Course #	Course	Theory	Lab	Extern	Credits
MLT 120	Phlebotomy and Specimen Collection	20	20		2.0
MLT 145	Clinical Chemistry	20	20		2.0
MLT 102	Human Pathology	40			2.5
MLT 150	Pathogenic and Parasitic Organisms	20	20		2.0
MLT 130	Hematology	20	60		3.0
MLT 155	Immunology and Serology	20	20		2.0
Semester III Total		140	140		13.5

Semester IV (15 Weeks)

Course #	Course	Theory	Lab	Extern	Credits
MLT 170	Immunohematology and Bloodbanking	20	60		3.0
MLT 125	Urinalysis and Body Fluids	20	20		2.0
MLT 135	Hemostasis and Specialty Testing	20	20		2.0
MAP 185	Medical Law and Ethics	40			2.5
CMS 111	Career Marketing Strategies	40			2.5
Semester IV Total		140	100		12.0

Semester V (15 Weeks)

Course #	Course	Theory	Lab	Extern	Credits
MLT 200	Medical Laboratory Review	20	60		3.0
EMG 101	CPR & Basic First Aid Certification	10	20		1.0
MLT 210	Externship			400	8.5
Semester V Total		30	80	400	12.5
PROGRAM TOTALS		750	440	400	69.5

LOCATIONS

Colorado Springs

PROGRAM INFORMATION

DELIVERY METHOD: *On-ground*

Program length: 75 weeks (15 weeks per semester). The total number of program hours is 1,590. Courses within a semester may not be taught concurrently, but all courses are taught within the 15 weeks. Graduates of this program receive an Occupational Associate degree and are eligible to apply to take the American Society for Clinical Pathology certification examination.

COURSE DESCRIPTIONS

PSY 107 Psychology of Success

Students will learn to balance home, work, and college using human relations skills, enabling them to contribute more to organizational productivity, and in general, have more successful careers.

Prerequisites: None

MAP 110 Medical Terminology

The student who successfully completes this course will be able to understand and build an extensive medical vocabulary including medical abbreviations. The student should also be able to use the word-building system to further define new medical terms as necessary.

Prerequisites: None

ENG 121 English Communications

Fundamentals of communication theory and practice are reviewed and practiced. Topics include the study of vocabulary, spelling, mechanics, parts of speech, and sentence analysis.

Prerequisites: None

MLT 140 General Chemistry

This course is designed to give the student fundamental basic knowledge of chemistry in preparation for utilization in the clinical laboratory. This course will cover basic principles, vocabulary, molecular structures, methods of measurement, quantum theory, acids, bases, and salts.

Prerequisites: None

MLT 100 Introduction to the Medical Lab

This course is designed to introduce students to OSHA standards, personal protective equipment, the care and use of laboratory equipment including microscopes and proper techniques for handling of glassware. In addition, students will learn basic skills in hematology, urinalysis, microbiology, chemistry, and parasitology. Quality control documentation requirements and techniques used in lab reporting will also be presented.

Corequisites: MAP 110 Medical Terminology

CIS 110 Fundamental Computer Skills

Students learn basic computer skills for the business and medical office. Hands-on experience with PC applications and typing technique will be the focus.

Prerequisites: None

MAP 123 Anatomy & Physiology: Circulation & Life

The student who successfully completes this course will be able to identify the first systems of the body and their major functions, describe the relationship of anatomy and physiology to the medical terminology used in transcribing medical records, and identify gross anatomical features on selected diagrams of the body systems.

Corequisites: MAP 110 Medical Terminology

MAP 122 Anatomy & Physiology: Control & Metabolism

The student who successfully completes this course should be able to identify the remaining systems of the body and their major functions, describe the relationships of anatomy and physiology to the medical terminology used in transcribing medical records, and identify gross anatomical features on selected diagrams of the body systems.

Prerequisites: MAP 110 Medical Terminology

MLT 105 Instrumentation & Quality Control

Students will be introduced to laboratory instrumentation including the spectrophotometer, perform linearity studies, and incorporate all aspects of quality control required in the laboratory.

Corequisites: MLT 100 Introduction to the Medical Lab; MLT 110 Math for Medical Specialties

MLT 115 Molecular Biology

Students who are enrolled in this course will learn the fundamentals of molecular biology. Students will have an understanding of cellular biology, genetics, metabolism, mitosis, and meiosis and how they relate to medical laboratory testing.

Prerequisites: None

MLT 110 Math for Medical Specialties

Upon completion of this course, students will have an understanding of mathematical concepts used in general chemistry, clinical chemistry, hematology, and basic physics needed for proper calculation in a medical setting.

Prerequisites: None

MLT 160 Microbiology

Upon completion of this course students will have an understanding of the theories and principles applicable to clinical microbiology. The student will recognize and learn the clinical significance of unusual pathogens. Students will be exposed to techniques for cultivation of anaerobes and identification schemes for less common pathogens. Students will become familiar with virology terminology.

Prerequisites: MLT 100 Introduction to the Medical Lab

Corequisites: MLT 115 Molecular Biology

COURSE DESCRIPTIONS

PSY 134 General Psychology

An introduction to psychological issues and disorders present in public interaction, including psychosocial factors in physical disorders. Basic relationship issues emphasizing boundaries, roles, limits, and methods are covered.

Prerequisites: None

MLT 120 Phlebotomy & Specimen Collection

Students who successfully complete this course will have the ability to perform proper collection, handling, and processing of blood using various collection methods. In addition, they will have an understanding of other specimen collection techniques, proper labeling, and required documentation in a medical laboratory.

Prerequisites: MLT 100 Introduction to Medical Lab

MLT 145 Clinical Chemistry

Upon completion of this course students will have an understanding of the theory and clinical interpretation of carbohydrates, lipids, and proteins needed for clinical laboratory testing. The student will have the ability to perform both manual and automated laboratory determinations and spectrophotometer methods. In addition, students will have an understanding of the standard operating procedures as well as quality assurance standards for all chemistry tests performed. Theory and clinical interpretation of enzymes, electrolytes, and toxic substances will be presented. The student will perform both manual and automated laboratory determinations corresponding to theoretical study.

Prerequisites: MLT 100 Introduction to Medical Lab; MLT 105 Instrumentation and Quality Control; MLT 140 General Chemistry

MLT 102 Human Pathology

Upon successful completion of this course, the student will have an understanding of the most common disease processes involved in all systems of anatomy and physiology.

Prerequisites: MAP 110 Medical Terminology

MLT 150 Pathogenic and Parasitic Organisms

Students will learn about parasites and clinically important protozoans, nematodes, trematodes, cestodes, and the following characteristics: geographical distribution, life cycle, pathology, morphology, and clinical diagnosis. This course provides practical procedures for the preparation, examination, and identification of common pathogenic parasites. Mycology and their reactions to the body and environment will be studied. The student will learn methods of collecting specimens, preparation of media, and microscopic examinations for the identification of common saprophytic and pathogenic fungi. Additional pathogenic microorganisms will be presented.

Prerequisites: MLT 160 Microbiology

MLT 130 Hematology

This course equips the student with the practices and principles explored in the hematology laboratory. Procedures include complete blood counts with white blood cell counts, red blood cell counts, hemoglobin determinations, hematocrit values, blood smear differential, red cell indices, sedimentation rates, and reticulocyte counts and gene mutation.

Prerequisites: MLT 105 Instrumentation and Quality Control; MLT 115 Molecular Biology

Corequisites: MLT 120 Phlebotomy and Specimen Collection

MLT 155 Immunology & Serology

This course will introduce the students to immunology, the immune response, and antigen/antibody testing, which will include various serology tests used in the laboratory. Students will become familiar with virology terminology and understand the classifications of various viruses and the clinical manifestations of viruses.

Prerequisites: MLT 105 Instrumentation and Quality Control

MLT 170 Immunohematology & Bloodbanking

This course is designed to give the student a basic understanding of the immune system and bloodbanking and their relationship to clinical testing. The student will have a basic knowledge of antigen-antibody testing methods and be able to perform the necessary pipetting skills for these tests. In addition, the student will understand and be capable of performing ABO grouping, RH typing, compatibility testing, antibody identification, and component therapy. Donor screening, blood processing, and appropriate quality assurance procedures are also treated.

Prerequisites: MLT 155 Immunology & Serology; MLT 130 Hematology

MLT 125 Urinalysis & Body Fluids

During this course students will learn the physical, chemical, and microscopic examination of urine and its importance to a physician in the diagnosis of disease. Students will also learn proper processing and handling of other bodily fluids for laboratory testing.

Prerequisites: MLT 100 Introduction to the Medical Lab; MLT 115 Molecular Biology

MLT 135 Hemostasis & Specialty Testing

This course will prepare students with knowledge of procedures in coagulation and handling of samples. Studies include clotting mechanisms, platelet structure and function, and the maintenance of vascular integrity including both intrinsic and extrinsic systems. All areas of study will be substantiated with lab procedures and methods used to monitor these conditions. In addition, the students will examine abnormal blood smears to include leukemias and myeloproliferative disorders.

Prerequisites: MLT 130 Hematology

COURSE DESCRIPTIONS

MAP 185 Medical Law & Ethics

Students will be able to state major legal concerns of being a member of the health profession, formulate self-awareness of ethics as it applies to the medical field, identify risk management issues, and state the importance of confidentiality.

Prerequisites: MAP 110 Medical Terminology

CMS 111 Career Marketing Strategies

Students create a portfolio including résumés, references, cover letters, and thank-you letters. Mock interviews will be conducted. Students learn how to evaluate job offers and skills.

Prerequisites: None

MLT 200 Medical Laboratory Review

Upon completion of this course the student will be prepared for the application process and testing procedures needed for completion of their certification exam. This course will provide review of all laboratory materials, competencies, and guidelines necessary for completion of the exam.

Prerequisites: MAP 110 Medical Terminology

EMG 101 Basic CPR & First Aid Certification

This course will be a combination of lecture, simulation, demonstration, and student participation. Lab time will allow hands-on experiences, small group discussions, simulations, and return demonstration of newly acquired skills.

Prerequisites: None

MLT 210 Externship

An externship consists of 400-hour field experience in an appropriate location. It provides an opportunity for students to practice the skills they have learned under direct supervision in an actual work environment.

Prerequisites: Semesters I, II, III, IV, and V courses
