

Physical Therapist Assistant

Physical therapist assistants work under the supervision of licensed physical therapists with patient rehabilitation.

They perform a variety of tasks, including exercises, electrical stimulation, paraffin baths, hot and cold packs, traction and ultrasound. These professionals record the patient's responses to treatment and report the outcome to the physical therapist. Additional duties may include clerical tasks, such as ordering depleted supplies, answering the phone and filling out insurance forms and other paperwork.

Physical therapist assistants are patient, resourceful, empathetic and tactful in order to help patients and their families understand their treatments and adjust to rehabilitation. They also need a moderate degree of strength because of the physical exertion required in assisting patients with treatment.

Trusted. Respected. Preferred.

What You Will Learn

As a student in the Physical Therapist Assistant program at Pima Medical Institute, you'll learn techniques that will help improve mobility, relieve pain and prevent or limit permanent physical disabilities of patients suffering from injuries or disease.

Job Outlook

According to the U.S. Bureau of Labor Statistics, overall employment of physical therapist assistants and aides is projected to grow 26 percent from 2018 to 2028, much faster than the average for all occupations. Demand for physical therapy is expected to increase in response to the healthcare needs of an older population and individuals with chronic conditions, such as diabetes and obesity.*

Employment

Physical therapist assistants work with physical therapists in a variety of settings. Most jobs are in hospitals or physical therapist clinics. Others work in nursing and personal care facilities, outpatient rehabilitation centers, and clinics, sports facilities and home health agencies.

Licensure and Certification

All states require a license or certificate to practice as a physical therapist assistant. In order to become licensed or certified, applicants must graduate from an accredited institution and successfully complete the National Physical Therapy Examination. Each state has established independent requirements and fees necessary for the physical therapist assistant to practice.
