

Occupational Therapy Assistant

Occupational therapy assistants help people of all ages develop, regain or master everyday skills in order to live life to its fullest. By focusing on the physical, psychological and social needs of its clients, occupational therapy helps people function at the highest possible level by concentrating on what is important to them to rebuild their health, independence and self-esteem.

An occupational therapy assistant is a skilled, certified healthcare worker who carries out treatment plans under the guidance and supervision of an occupational therapist.

These specially trained and credentialed professionals rely on evidence-based best practices and science-driven data to constantly improve patient outcomes.

Trusted. Respected. Preferred.

Occupational Therapy Assistant Course Outline

What You Will Learn

Through Pima Medical Institute's Occupational Therapy Assistant program, you'll acquire the necessary skills for a solid entry-level position as an occupational therapy assistant. Our coursework focuses on medical terminology, anatomy and physiology, growth and development, kinesiology and occupational therapy for mental and physical health.

Job Outlook

According to the U.S. Bureau of Labor Statistics, overall employment of occupational therapy assistants and aides is projected to grow 34 percent from 2020 to 2030, much faster than the average for all occupations. Occupational therapy will continue to be an important part of treatment for people with various illnesses and disabilities.*

Employment

Occupational therapy assistants provide treatment interventions to infants, children, adults and geriatric patients in settings such as public schools, hospitals, rehabilitation centers, mental health centers, nursing homes and other community settings.

Licensure and Certification

Graduates of an accredited Occupational Therapy Assistant program will be eligible to take the national certification examination for the occupational therapy assistant. This exam is administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of the exam, the individual will be a Certified Occupational Therapy Assistant (COTA).
