

Bachelor of Science in Health Care Administration (BSHCA)

Trusted. Respected. Preferred.

100% Online

20-Month Program

Accredited

Pima Medical Institute's Bachelor of Science in Health Care Administration is a degree completion program intended for current healthcare professionals to foster critical thinking skills, communication competence and leadership capacity with an advanced understanding of health care management services and delivery.

Students will:

- Develop strategies to analyze **behavioral, ethical and cultural trends** that impact management in health care systems with diverse populations.
- Demonstrate the ability to evaluate **ethical, legal and regulatory policies**
- **Master core business theories** as applied to health care systems.

(800) 477-7462 PMI.EDU

Student Outcomes

Program Focuses

- Evaluate how health care policy and delivery is impacted by the legal, ethical, and political environment
- Analyze how health care systems are influenced by behavioral, ethical, social and cultural trends
- Support decision making with appropriate research, analysis and evaluation in health care administration
- Utilize data and technology to improve overall health care system performance
- Apply leadership skills to employee engagement, change management, and strategic planning in health care organizations

Professional Outcomes

- Prepare for management and leadership roles in the healthcare industry
- Diversify into other career opportunities in healthcare, including education, owning your own business and continuing education such as a master's degree
- Position yourself as a desirable candidate who earned an advanced degree

Life as an Online Student

Pima Medical's BSHCA program is composed exclusively of online classes, allowing you the flexibility to balance your personal and professional commitments while completing your education.

During your time as an online student, you will:

- Receive personalized attention from expert faculty
- Interact with peers and faculty from all over the country in a collaborative format
- Experience learning with a multimedia approach, including videos, podcasts, knowledge checks, instructor experience and artificial intelligence
- Have the flexibility to complete your coursework when convenient, while also relying on a logical course structure with due dates
- Have access to the Pima Medical community when you need assistance

"I was 40+ years young with a family and I was working full time, but the bachelor's program turned out to be a great fit for me. The flexibility of online education allowed me to continue to live my daily life, work and even travel without falling behind."

-Ivan St. Luis, Bachelor of Science in Health Care Administration graduate
