Radiography Program Mission Statement

It is the mission of our program to graduate students with the entry-level employment skills required of a Radiologic Technologist. Students will graduate to be successful radiographers who can safely and competently perform radiographic exams as specified by ARRT guidelines.

Radiography Program Goals

Goal 1: Students will demonstrate clinical competence.

Goal 2: Students will demonstrate critical thinking and problem solving skills.

Goal 3: Students will demonstrate effective communication skills.

Student Learning Outcomes

Goal 1 Outcomes:

1. Students will demonstrate competence in the performance of radiographic examinations.
2. Student will be able to demonstrate patient care.

Goal 2 Outcomes:

1. Students will demonstrate positioning and modifications on exams.
2. Students will use problem solving and critical thinking to determine safe and effective transfer methods for patients.

Goal 3 Outcomes:

1. Students will demonstrate effective communication skills.
2. Students will demonstrate effective interpersonal communication skills.

Program Effectiveness Data

The following is the most current program effectiveness data. Our programmatic accreditation agency, the Joint Review Committee on Education in Radiologic Technology (JRCERT), defines and publishes this information. [Click here](#) to go directly to the JRCERT webpage.

Credentialing Examination: The number of students who pass, on the first attempt, the American Registry of Radiologic Technologists (ARRT) certification examination, or an unrestricted state licensing examination, compared with the number of graduates who take the examination within six months of graduation. The five-year average benchmark established by the JRCERT is 75%.

Job Placement: The number of graduates employed in the radiologic sciences compared to the number of graduates actively seeking employment in the radiologic sciences within twelve months of graduating. The five-year average benchmark established by the JRCERT is 75%.
